Drop-In Bathtubs

Atlantis Whirlpools is among the most trusted and reliable source of whirlpool bathtubs and products in North America.

Drop-in baths have a finished rim designed to drop into a deck or custom surround. One of the advantages of drop-in bathtubs is that they can be installed in a variety of ways like corners, peninsulas, islands, recesses, or sunk in the floor. A drop-in bath is supported from below and has a self-rimming edge that is designed to sit over a frame top with tile or any other water-resistant material.

Our drop-in tubs include alcove and skirt configuration for select models. Most drop-in tubs are available as a soaker, air, whirlpool and dual options.

GemStone Collection

GemStone Collection

Atlantis Whirlpools is honored to introduce "Fl'eau", the latest creation from renowned artist/designer Joel Roberts as the flagship vessel for our all new GemStone Collection.

Fl'eau transforms the sturdy man-made composite stone material into an expression of freeform elegance capturing the natural fluidity and grace of water. Soft, sweeping curves captivate the viewer by leading the eye across each gentle wave encompassing the figure.

When high form meets function, the result is a commanding centerpiece to any master bathroom design. It is to this end which Fl'eau perfectly embodies the essence of the GemStone Collection.

GemStone Collection

Atlantis Whirlpools is proud to introduce the GemStone Collection featuring elegantly crafted, man-made stone freestanding bathtubs. The GemStone Collection boasts solid one-piece construction tubs with a matte finish that is soft and warm to the touch.

With such strikingly beautiful design any GemStone Collection freestanding tub is a worthy center piece to any master bathroom.

Example of a matte finish compared to a glossy finish:
